

## PROFILES IN ECONOMICS

TriState Books of  
Note Series

### PROFILES IN ECONOMICS

examines the lives and works of four of history's most influential economists: Adam Smith, John Maynard Keynes, Milton Friedman, and Karl Marx. Each title details how the subject's life and experiences shaped their theories, and how those theories influenced society and how we think of economics today.

### REVIEW

"Rössig provides a well-researched account of Marx's life and his work, pointing out ironies between the two but commenting on the context, meaning, and importance of writings such as The Communist Manifesto and Capital." —*Booklist on Karl Marx*
